

Hydro tap

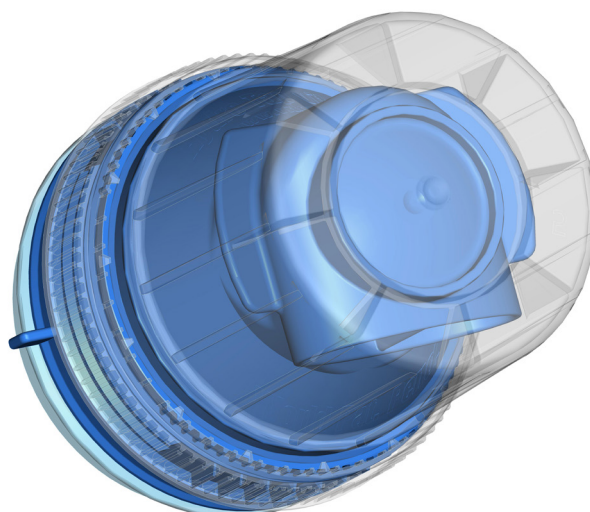

Innovation

SIMPLE AND EFFICIENT

The worldwide patented Hydro is the perfect tap for large PET water bottles, ensuring steady flow of the water and perfect hygiene. The water cannot be opened thanks to the double tamper-evidence (seal on the body of the tap and seal on the bottle), guaranteeing an unsurpassed integrity to the final consumer.

LARGE USE

The Hydro is very easy to use for people of all ages. It closes automatically when the front button is released.

Benefits

Advantages of Hydro tap

- 1 **HYGIENE:** The hygienic top cap keeps the tap clean and the double tamper-evidence (seal on the body of the tap and seal on the bottle) guarantees the perfect integrity of the water inside.
- 2 **EASY USE:** Closes automatically when the front button is released. Ready to pour without picking up the bottle, whether the bottle is sitting in a refrigerator or on a kitchen shelf. Possibility to remove the tap.
- 3 **FLEXIBILITY:** Designed to fit a 48/40 mm neck-finish and well adapted to major preforms. Bottles with the Hydro tap can be easily stacked.
- 4 **PERFECT COMPLIANCE:** Fully meets FFDA and European Union food contact legislation. Suitable for contact with foodstuffs
