

Easy Connector

Open new markets

THE VITOP CONNECTORS ENABLE YOU TO ENTER THE ON-TRADE MARKET.

Especially suitable for dairy products, Easy Connector is designed to ensure clean, fast, economic, reliable and tight connections to pump flow distribution systems used in bars and restaurants.

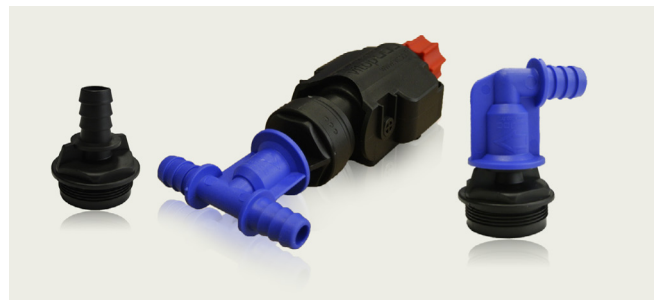

It is extremely easy to undo and clean; the manipulation takes only several seconds, which makes its use very simple and intuitive.

Benefits

Advantages of Vitop Easy Connector

- 1** **EASY TO USE:** The design of the Easy Connector is intuitive - it is easy to connect to the Original Vitop® tap, easy to undo and re-connect again.
- 2** **HYGIENE:** Cleaning is simple and quick because the Easy Connector has no spring and only four parts. Certified for food contact. It is fitted with an anti-return valve.
- 3** **FLEXIBILITY:** Several connector models are adapted to the application and the distribution system with T, L or standard shaped end fittings and end-fitting standard diameters of 6 mm, 10 mm and 13 mm.
- 4** **COMPATIBILITY:** Guaranteed compatible with the Original Vitop®. Works with a pump system.
